

Email Setup Guide

Setting Up Email On Ipad

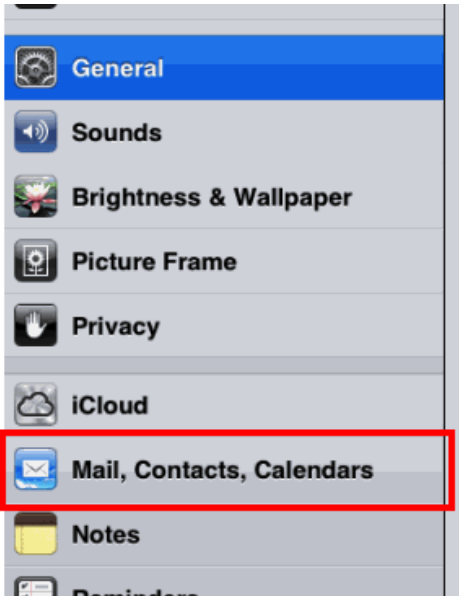

iOs - iPad Mail

Open the **“Settings”** menu on your iPad.

Scroll down and find **“Mail, Contacts, Calendars”** and open it.

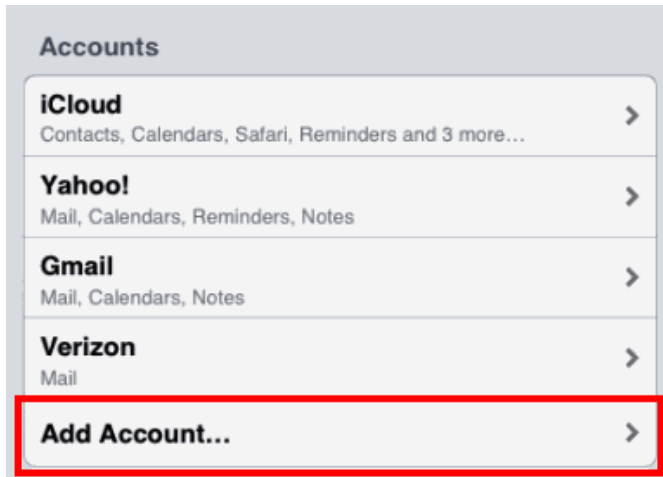

Email Setup Guide

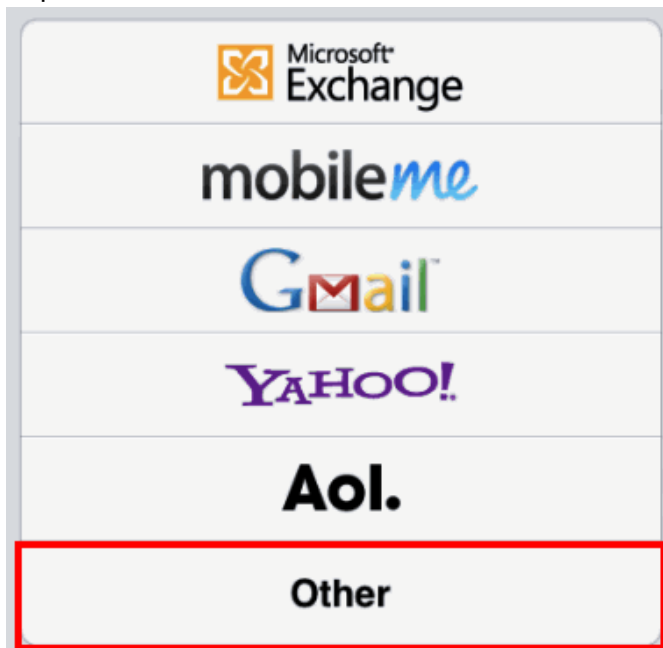

Setting Up Email On Ipad

Under “Accounts” tap “Add Account...”.

Tap “Other”.

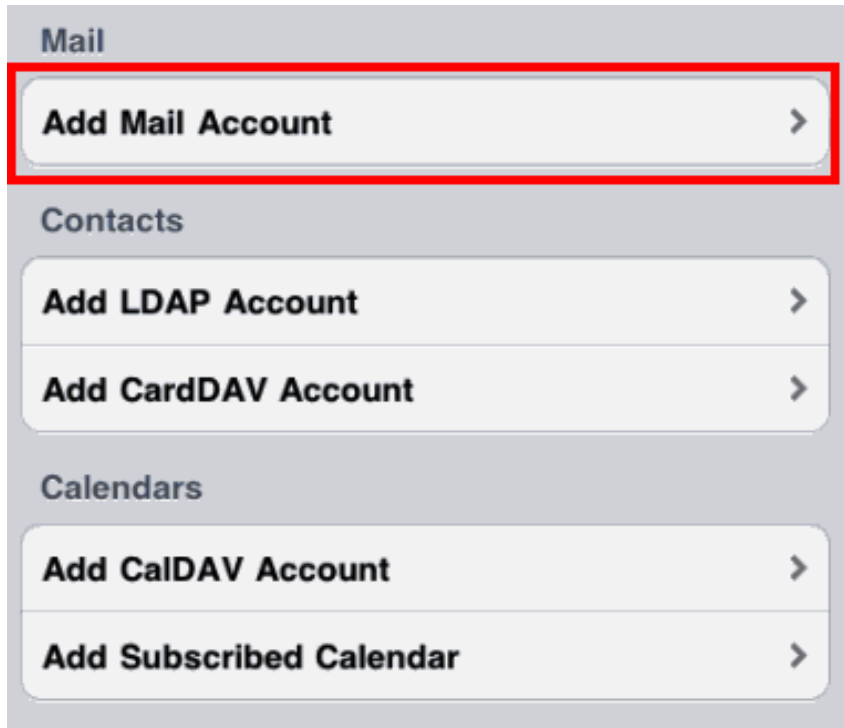

Email Setup Guide

Setting Up Email On Ipad

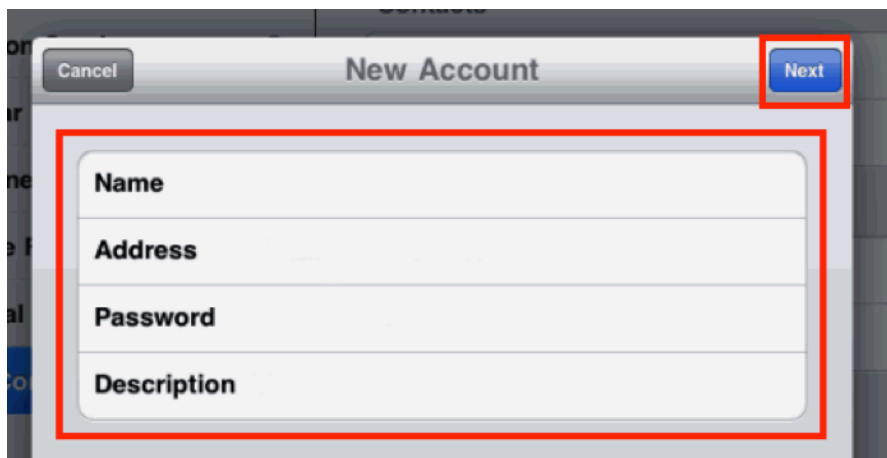

Under “Mail” tap “Add Mail Account”.

Add the following information:

- 1 In “Name”, enter your name.
- 2 In “Address”, enter your activ8me email address.
- 3 In “Password”, enter the password used to login to your activ8me email.
- 4 In “Description”, put a relevant description of this email account such as “Activ8me Email”.

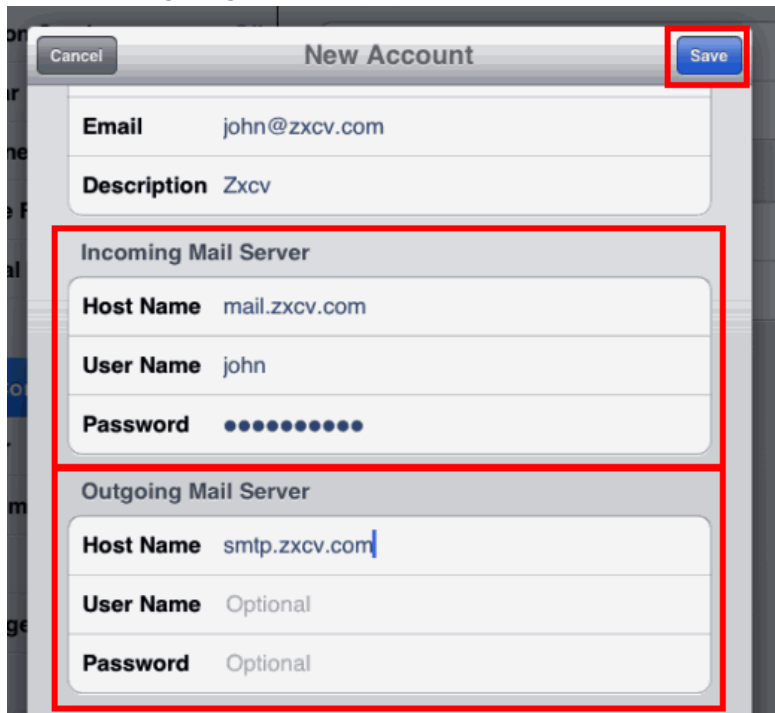

Email Setup Guide

Setting Up Email On Ipad

If you are prompted for server settings enter the following:

- 5 Under **"Incoming"**, set **"Host Name"** to mail.activ8.net.au, **"User name"** to your account username and **"Password"** to your account password.
- 6 Under **"Outgoing"**, set **"Host Name"** to mail.activ8.net.au.

If your iPad warns that it cannot connect using SSL and asks if you would like to proceed without SSL, tap **"Yes"**.

You have now setup your iPad to receive email for your Activ8me account.
