Email Setup Guide

Setting Up Mail On iPhone

iOs - iPhone Mail

Open the settings menu on your iPhone.

Scroll down and find **"Mail, Contacts, Calendars"** then open it.
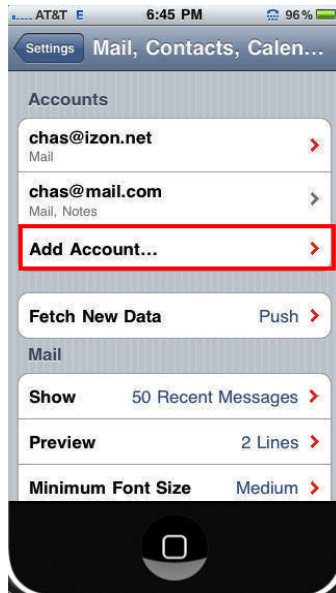

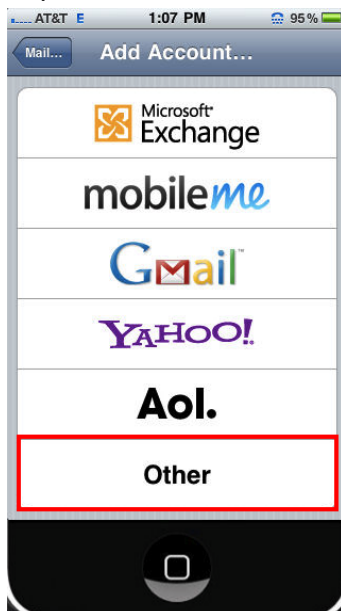

Email Setup Guide
Setting Up Mail On iPhone

Under **"Accounts"** tap **"Add Account..."**
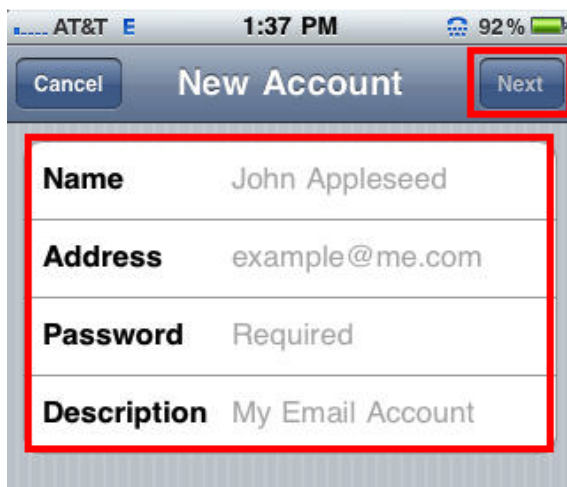

Tap **"Other"**.

Email Setup Guide

Under **"Mail"** tap **"Add Mail Account"**.

Add the following information:
1 In **"Name"**, enter your name.
2 In **"Address"**, enter your Activ8me email address.
3 In **"Password"**, enter the password used to login to your Activ8me email.
4 In **"Description"**, put a relevant description of this email account such as "Activ8me Email".

If your phone warns that it cannot connect using SSL and asks if you would like to proceed without SSL, tap **"Yes"**.

You have now setup your iPhone to receive email for your Activ8me account.
