## Usage Information

A record of your account usage can be viewed by logging into the 'My Account' section of the Activ8me website at [www.activ8me.net.au](http://www.activ8me.net.au). Usage information can take up to 24 hours to update.

Data Usage is counted in both directions, so if you download 15 GB and upload 5 GB, that counts as 20 GB of Data Usage. Once your monthly internet data limit is reached, your connection speed will slow to a maximum of 256/256kbps for the remainder of your billing month.

Rate limiting affects all network traffic. The application and removal of rate limiting does not occur immediately and may take over an hour to be actioned by our systems. Data Allowances are reset at the start of each billing period. Unused data is not carried over to the next billing period.

Internet usage must be for residential use only and may not be used for commercial purposes.

Internet usage is subject to the Activ8me Acceptable Use Policy.
